DETAILED ACTION

Claims 1-33 are allowed. The following is an examiner's statement of reasons for allowance: it would not have been obvious to provide a storage apparatus for a plurality of disk drive storage devices, wherein the storage apparatus comprises a board having one row of ports staggered with respect to another row of ports so that ports of one row are not transversely aligned with ports of the other row, and wherein component sides of the storage devices are facing away from each other while the non-component sides face each other. These elements and or steps, in combination with the remaining elements/steps are not disclosed in the prior art references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
